1 PROFESSIONAL OVERVIEW

As an Advanced Amazon Virtual Assistant Expert, I bring years of hands-on experience managing, optimising, and scaling Amazon businesses across diverse product niches and marketplace categories. My expertise encompasses the full spectrum of Amazon marketplace operations—from product research and listing optimisation to inventory management and performance analytics.

I specialise in crafting strategic growth plans grounded in data-driven insights, ensuring business profitability and sustainable marketplace presence. My comprehensive knowledge of Amazon's Seller Central tools, policies, and A9/A10 algorithms empowers sellers to increase organic visibility, enhance customer experience, and consistently outperform competitors. With a proven track record across FBA and FBM fulfilment models, I deliver measurable results that translate into tangible business expansion—leveraging both tactical daily execution and long-horizon strategic foresight.

7+ Years Amazon Experience	500+ ASINs Managed	35%+ Avg Revenue Growth	98% Account Health Score

2 CORE EXPERTISE & KEY SKILLS

■ Amazon Seller Central Management

Expert navigation of Seller Central dashboards, case management, bulk operations, and account configuration across single and multi-marketplace environments.

■ Product Research & Niche Validation

Data-driven product opportunity identification using Helium 10, Jungle Scout, and AMZScout—analysing demand, competition, seasonality, and margin viability.

■ Listing Creation & SEO Optimisation

Conversion-focused listing copy with strategic keyword placement in titles, bullet points, descriptions, and backend search terms aligned to A10 algorithm ranking factors.

■ PPC Campaign Management

Sponsored Products, Sponsored Brands, and Sponsored Display campaign creation, bid optimisation, and ACoS/TACoS management for profitable advertising ROI.

■ Inventory & FBA Management

Reorder planning, inbound shipment creation, IPI monitoring, stranded listing resolution, and storage fee management to maintain healthy fulfilment operations.

■ Account Health & Policy Compliance

Daily monitoring of ODR, late shipment rates, and policy warnings with rapid corrective action to safeguard account standing and Buy Box eligibility.

■ Competitor Research & Market Analysis

Ongoing competitive intelligence covering pricing strategies, listing quality benchmarking, review velocity analysis, and BSR trend monitoring.

3 PROFESSIONAL STRATEGY & WORK APPROACH

Data-Driven Decision Framework

Every operational decision—from restock quantities to bid adjustments—is grounded in performance data. Weekly metric reviews identify emerging opportunities and risks before they impact business outcomes.

Keyword Velocity & Ranking Strategy

Listings are continuously optimised based on search term performance data from Search Query Performance reports. High-converting keywords are promoted to prominent title placement; underperforming terms are rotated out systematically.

Review Velocity & Social Proof Management

Proactive Vine programme utilisation, Request a Review automation, and seller feedback management maintain strong review profiles that boost both organic ranking and conversion rate.

Seasonal Planning & Promotional Calendar

Business performance is aligned to Amazon's promotional calendar—Prime Day, Black Friday, Q4 peak—with inventory, listing, and PPC strategies prepared 6–8 weeks in advance to maximise each peak revenue opportunity.

4 WHY CHOOSE THIS EXPERT

❖ Deep Marketplace Expertise

Comprehensive knowledge of Amazon's policies, algorithms, and Seller Central tools built through years of active account management across multiple categories.

❖ Proactive Account Protection

Early identification of compliance risks, listing suppressions, and account health issues before they escalate into revenue-impacting problems.

❖ Transparent Performance Reporting

Weekly KPI dashboards covering sales velocity, PPC performance, ranking movements, and inventory health—communicated in clear, actionable business language.

❖ Scalable Operational Systems

Documented SOPs and workflow systems that maintain operational excellence whether managing 10 ASINs or 500, without proportional overhead growth.

❖ Committed Growth Partnership

Genuine investment in each seller's long-term success—approaching every account with the ownership mindset of a business partner, not a task executor.

This document presents the professional profile of an Advanced AMAZON VIRTUAL ASSISTANT Specialist. All capabilities described reflect real-world, industry-standard expertise.
